

NHK WORLD-JAPAN

NHK WORLD-JAPAN delivers the latest information on Japan and Asia to the rest of the world. Its wide variety of programs - news, business, documentary, travel, food, culture and entertainment - will be shown on big screen monitors. NHK WORLD-JAPAN's 24-hour rebroadcast and block syndication will be presented to participating broadcasters so they can experience the multilingual Internet content. In addition, the diversity of NHK WORLD-JAPAN will be introduced through a variety of events that are gaining wide attention in Asia, including a BOSAI-related workshop, a learning quiz for the Japanese language and a Domo related-event.

NHK Archives

There will be a demonstration of the 4K-scanning of historical footage and colorization of black-and-white films by NHK Archives using AI. There will also be a presentation of programs restored and converted from 16mm film to 4K · HDR including "The Silk Road" and a free-of-charge display of a touch-panel monitor used to search archive contents. Consultations regarding the preservation and restoration of archives will also be available.
